(16) DESCRIPTION OF BUSINESS

TD and Associates, Inc., is an oil and gas operating company. It was formed to take advantage of the rapidly developing opportunities of the oil and gas industry.

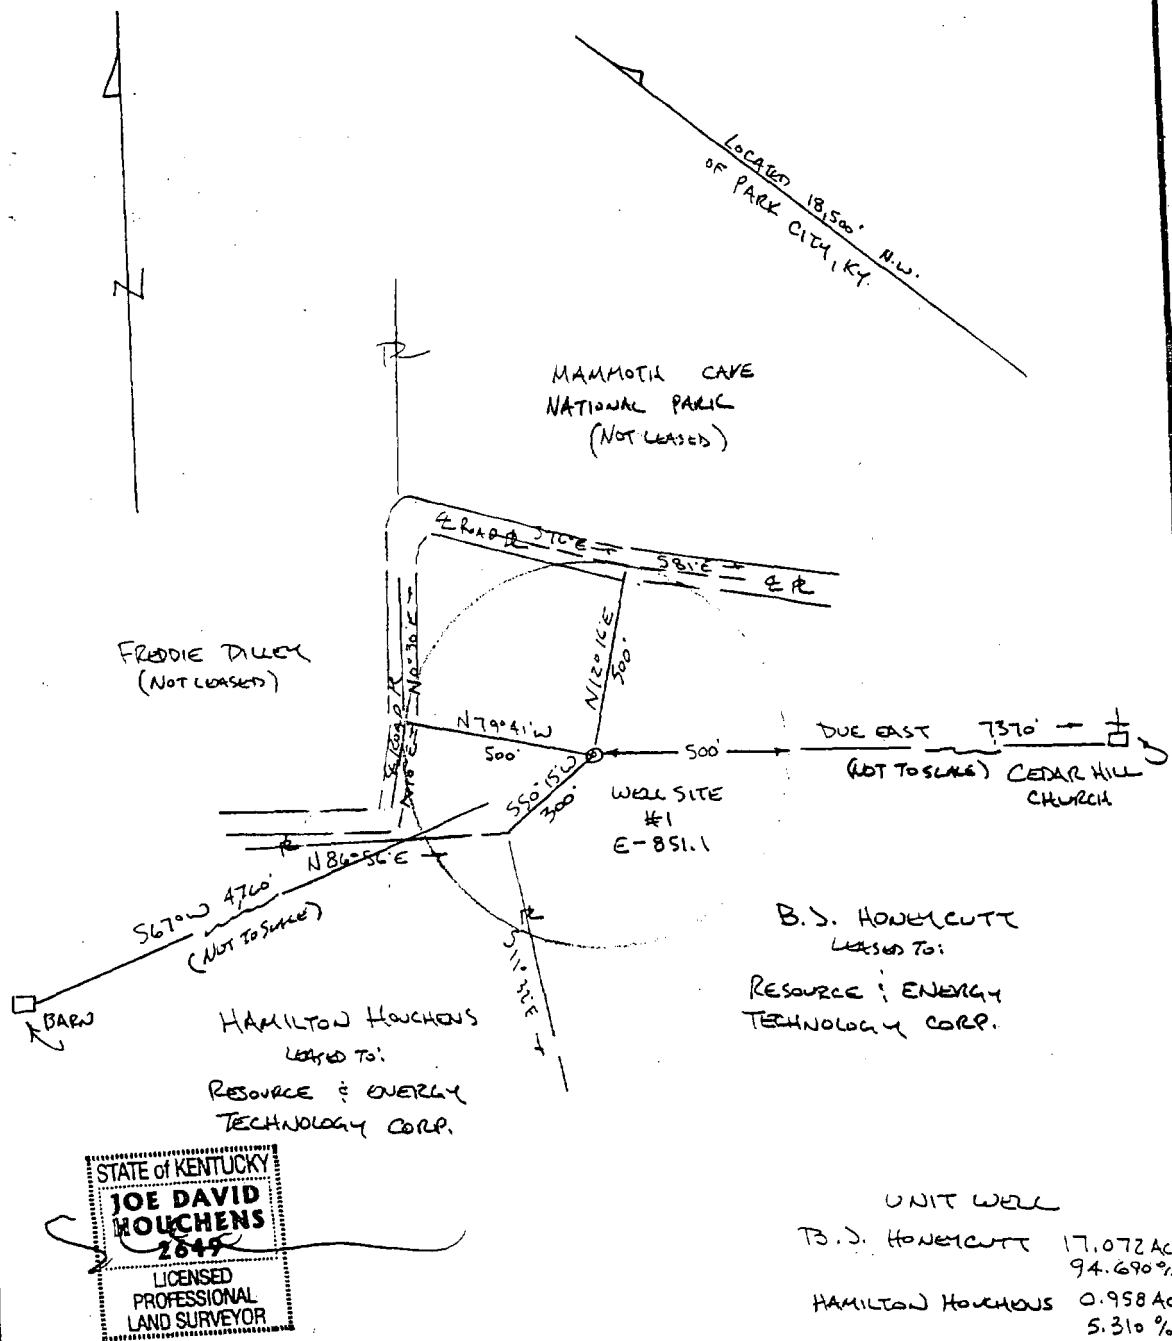

The operation of TD and Associates, Inc., is to develop via general partnerships, oil and gas wells in California, Kansas, Arkansas, Louisiana, Texas and Kentucky.

TD and Associates basic strategy is based upon its opinion that the best market for drilling, completion and production services exists at the present time. Companies that borrowed heavily during the previous boom are struggling with debt service against a decreased per barrel price for the oil that they have recovered. For this reason they are not in a position to continue exploration and development at anywhere near the level they had been maintaining.

It is TD and Associates position that it will be able to pick up leases and wells operated by struggling companies, at a reduced price, and operate these wells for a significant profit. These types of operations have been described in other Forbes and Time Magazine as "vulture funds".

At present prices it is estimated that any well which can be developed successfully as a commercial well to produce oil, gas or other minerals in a commercial quantity will result in a return of investors' funds within the first eighteen (18) to thirty-six (36) months of operations. Naturally, should the price which is paid for oil increase, we anticipate the economic advantages to also increase.
